Veterans Homes of California

The mission of the 8 CalVet Homes is "to provide the state's aged or disabled veterans with rehabilitative, residential, and medical care and services in a home-like environment." This mission acknowledges the tremendous sacrifice California veterans have made and recognizes them for their noble service to our nation.

The first Veterans Home in California was established in 1884 for Civil War veterans. Today, the CalVet Homes provide long-term care to resident veterans. The eight current Homes are a system of live-in, residential care facilities offering a comprehensive plan of medical, dental, pharmacy, rehabilitation services and social activities within a homelike, small community environment. Residents engage in a wide range of activities including social events, dances, patriotic programs, volunteer activities, arts and crafts, computer access, shopping trips and other off-site activities. Residents live in an atmosphere of dignity and respect—a true home for each resident veteran.

The Homes range in size from 60 residents on a 20 acre site to over 1,000 residents on 500 acres. When all eight Homes are complete, they will house and care for approximately 3,000 veterans.

Veterans who are age 55 and above and discharged from active military service under honorable conditions, are eligible to apply for admission. The age requirement is waived for disabled or homeless veterans needing long-term care.

Financial Assistance Benefits

Property Tax Exemptions

Property tax exemptions on the assessed value of a home of:

- a) Up to \$111,296 if the total household income from all sources is over \$49,979 per year.
- b) Up to \$166,944 if the total household income from all sources is under \$49,979 per year.

Who May Be Eligible: a) Wartime veterans who are in receipt of service-connected disability compensation at the totally disabled rate. b) Unmarried surviving spouses or registered domestic partners of veterans who are in receipt of service-connected death benefits. c) Wartime veterans who are service-connected for loss the use of two or more limbs. d) Wartime veterans who are service-connected for blindness.

To apply contact your local County Assessor's Office (located in the county government section of your telephone book).

Veterans Exemption

The California Constitution provides a \$4,000 real property (e.g., a home) or personal property (e.g., a boat) exemption for honorably discharged veterans or the spouse or pensioned-parent of a deceased, honorably discharged veteran. Most persons, however, are disqualified from this exemption due to restrictions on the value of property a claimant may own. A person who owns property valued at \$5,000 or more (\$10,000 or more for a married couple or for the unmarried surviving spouse of a qualified veteran) is not eligible for this exemption. Thus, a veteran who owns a home would most likely not qualify for the veterans exemption.

Disabled Veterans Exemption

The California Constitution and Revenue and Taxation Code Section 205.5 provides a property tax exemption for the home of a disabled veteran or an unmarried spouse of a deceased disabled veteran. There is a basic \$100,000 exemption or a low-income (less than \$52,470) \$150,000 exemption available to a disabled veteran who, because of an injury incurred in military service:

- is blind in both eyes; or
- has lost the use of two or more limbs; or
- is totally disabled as determined by the VA or by the military service from which the veteran was discharged.

An unmarried surviving spouse may also be eligible if the service person died as the result of a service-connected injury or a disease incurred while on active duty or as the result of active duty. In other words, a veteran may not have been eligible during his or her lifetime, but the surviving spouse may become eligible for the exemption upon the veteran's death.

Unlike the veterans exemption, the disabled veterans exemption has no personal wealth restriction. The exemption is only available on a veteran's principal place of residence. The home may only receive one property exemption. Thus, if a homeowner's exemption has been granted on a property and the owner subsequently qualifies for the disabled veterans' exemption, the homeowner's exemption should be cancelled to allow for the disabled veterans exemption as it provides the greater benefit.

The issues regarding these exemptions are complex, and the eligibility requirements are specific. Consult the local assessor's office for detailed requirements regarding these exemptions.

- The member was injured while serving on active duty and has been discharged from federal active duty and is actively seeking assistance through the United States Department of Veterans' Affairs with regard to disability compensation benefits or treatment, or both. Application for a cash grant under this section shall be submitted within 18 months of being released from federal military active duty, along with written substantiation demonstrating that the member's current financial hardship is a direct result of a military deployment and an injury sustained during the deployment.

1. Any veteran, widow or widower of a veteran, or spouse of a 100% disabled veteran, who achieves a passing score in an entrance examination, shall be ranked in the top rank of the resulting eligibility list. Any veteran who has been dishonorably discharged or released is not eligible for Veterans' Preference.

3. Veterans' Preference is not granted once a person achieves permanent civil service status.

How Veterans' Preference is Applied to Open Eligibility Lists

Surviving spouses or RDPs who have not remarried are also eligible.

"Active service to the state," for the purpose of this benefit, means a member of the California National Guard activated pursuant to Section 146 of the Military and Veterans Code. A copy of those orders pursuant to Section 146, not Section 143, must be furnished to establish eligibility.

State Veterans Cemeteries

- **Northern California Veterans Cemetery.** The Northern California Veterans Cemetery (NCVC) is the first California Veterans Cemetery constructed with the cooperation of the US Department of Veterans Affairs, and is operated by the state. State Veterans Cemeteries are intended to serve areas that are not adequately served by a National Cemetery. NCVC, located near Redding, California, primarily serves the veteran population in the eighteen Northern-most California counties. The currently developed area of the cemetery provides sufficient burial space for more than thirty years. Beyond that, the cemetery has the capacity for expansion of space for well beyond 100 years. Any eligible veteran, along with their spouse and eligible dependents, may be interred at the cemetery.
- **Yountville Veterans Cemetery.** The Yountville Veterans Cemetery is located on 11 acres of oak-covered hills in the northwest corner of the Yountville Veterans Home; this historic cemetery marks the resting place of over 5,700 veterans and dependents. The cemetery currently accepts only the interment of the Veteran Home's residents and their eligible dependents. Eligibility for interment is equivalent to the requirements for burial in a National Cemetery.
- **California Central Coast Veterans Cemetery.** The California Central Coast Veterans Cemetery (CCCVC) will be the second California Veterans Cemetery developed and constructed in cooperation with the US Department of Veterans Affairs, Veterans Cemetery Grants Service. The facility will be located in Monterey County in the City of Seaside. CCCVC is currently in the design phase with the construction phase estimated to begin in November 2014. Construction is scheduled for completion in January 2016. The first phase of the cemetery will accommodate cremated remains only. Casketed burials will be included in the second phase of development. While there is currently no scheduled opening date for phase I, the California Department of Veterans Affairs is committed to widely publishing the dedication and opening. The application requirements and scheduling process will be shared as the opening draws near.

Eligibility

The VA has adopted regulations that establish the eligibility requirements for interment in a state veterans' cemetery. The regulations make the state eligibility requirements equivalent to the requirements for burial in a National Cemetery and provide for CalVet collection of information needed to determine eligibility. For eligibility requirements, go to <http://www.cem.va.gov>.

The Eligibility Determination/Pre-need Form is designed to assist in determining eligibility for burial in the NCVC on a pre-need basis. Pre-need determination allows a veteran to establish in advance, his/her eligibility for interment at the NCVC. There is no cost for pre-need determination, and it does not obligate the veteran to be interred at the cemetery.

Pre-need determination is intended to simplify and assist the veteran's next-of-kin at the time of death. There will be a \$500 interment fee for eligible spouses and dependent children at the time of need. Associated funeral expenses are incurred by the veteran and/or family.

The Eligibility Determination Form can be downloaded or is available from the local County Veterans Service Office <http://www.cacvso.org>.

National Cemeteries

The VA's National Cemetery Administration maintains 131 national cemeteries in 39 states (and Puerto Rico) as well as 33 Soldier's lots and monument sites. There are nine national cemeteries in California, of which five (Riverside National Cemetery, Sacramento Valley VA National Cemetery, San Joaquin Valley National Cemetery, Miramar National Cemetery and Bakersfield National Cemetery) are presently accepting new interments. The other national cemeteries in California are only accepting burials of family members of persons already interred, although Fort Rosecrans National Cemetery (near San Diego) still offers burial of cremated remains.

Persons eligible for burial in a national cemetery include:

- Veterans;
- Service members who die on active duty;
- Certain Reservists and National Guard members;
- World War II Merchant Mariners;
- U.S. citizens who served honorably in the Armed Forces of an Allied government during a war
- Such other persons or classes of persons as may be designated by either the Secretary of Veterans Affairs or the Secretary of the Air Force.
- Additionally, the spouse and the children (as defined) of eligible persons are also eligible for burial in a national cemetery. In some cases, parents of active duty military killed in action may also be eligible.

Burial benefits may include the following: gravesites for casket or cremation remains, headstones or markers, opening and closing of the graves, and continued perpetual care. Burial of eligible veterans and dependents is at no cost when interred at a national cemetery.

Associated funeral expenses are the responsibility of the veteran and/or family. For assistance in completing applications for cemetery and burial benefits, please contact the local County Veterans Service Office.

Burial and Plot-Interment Allowances

VA burial allowances are partial reimbursements of an eligible veteran's burial and funeral costs. When the cause of death is non-service related, the reimbursements are generally described as two payments: (1) a burial and funeral expense allowance, and (2) a plot or interment allowance.

A veteran may be eligible for a VA burial allowance if:

- the veteran paid for a veteran's burial or funeral; and
- the veteran has not been reimbursed by another government agency or some other source, such as the deceased veteran's employer; and
- the veteran was discharged under conditions other than dishonorable.

In addition, at least one of the following conditions must be met:

- the veteran died because of a service-related disability; or
- the veteran was receiving VA pension or compensation at the time of death; or
- the veteran was entitled to receive VA pension or compensation, but decided not to reduce his/her military retirement or disability pay; or
- the veteran died while hospitalized by VA, or while receiving care under VA contract at a non-VA facility; or

- the veteran died while traveling under proper authorization and at VA expense to or from a specified place for the purpose of examination, treatment, or care; or
- the veteran had an original or reopened claim pending at the time of death and has been found entitled to compensation or pension from a date prior to the date of death; or
- the veteran died on or after October 9, 1996, while a patient at a VA-approved state nursing home.

How Much Does the VA Pay?

- **Service-Related Death:** The VA will pay up to \$2,000 toward burial expenses for deaths on or after September 11, 2001. If the veteran is buried in a VA national cemetery, some or all of the cost of transporting the deceased maybe reimbursed.
- **Non-Service-Related Death:** The VA will pay up to \$300 toward burial and funeral expenses and a \$300 plot-interment allowance for deaths on or after December 1, 2001. As of October 2011, the burial and funeral expenses and the plot allowance increase to \$722. If the death happened while the veteran was in a VA hospital or under VA contracted nursing home care, some or all of the costs for transporting the veteran's remains may be reimbursed. No plot allowance is paid to the family when the burial occurs in a national or state veteran's cemetery.
- To obtain information regarding associated funeral expenses are incurred by the veteran and/or family, contact the local County Veterans Service Office.

To apply for burial benefits, complete VA Form 21-530, Application for Burial Benefits. Attach a copy of the veteran's military discharge document (DD Form 214 or equivalent), death certificate, and funeral and burial bills. The bills should indicate they have paid them in full. Please download the form or one can be obtained from the local County Veterans Service Office.

The California Women Veterans Roster

Unfortunately, women veterans have not applied for or utilized their veterans benefits as have their male counterparts, which ultimately dilutes the voice of veterans overall. The California Women Veterans Roster is an information bridge that connects California's women veterans to the various resources and benefits available to them.

The roster is strictly confidential and used solely as a link among California's women veterans. Help give women the voice they earned through service to our country. If you are a woman veteran, join the California Women Veterans Roster! If you are not a woman veteran, please give the gift of information and pass a copy of the roster application form (see below) on to a woman veteran or someone you know associated with women veterans.

The California Veterans Registry at the California Veterans Memorial

The California Veterans Registry is a permanent record of all California Veterans -- past and present -- who have served our nation since statehood was established in 1850. Whether cook or fighter pilot, mechanic or chief of staff, this memorial will honor them all, and forever immortalize the contributions that California veterans have made to their nation.

Each California veteran is entitled to the basic information of name, rank and branch of service. To create a truly living memorial, California veterans are encouraged to expand on the basic information by contributing to the enhanced registry.
