Veterans Homes of California

The mission of the 8 CalVet Homes is "to provide the state's aged or disabled veterans with rehabilitative, residential, and medical care and services in a home-like environment." This mission acknowledges the tremendous sacrifice California veterans have made and recognizes them for their noble service to our nation.

The first Veterans Home in California was established in 1884 for Civil War veterans. Today, the CalVet Homes provide long-term care to resident veterans. The eight current Homes are a system of live-in, residential care facilities offering a comprehensive plan of medical, dental, pharmacy, rehabilitation services and social activities within a homelike, small community environment. Residents engage in a wide range of activities including social events, dances, patriotic programs, volunteer activities, arts and crafts, computer access, shopping trips and other off-site activities. Residents live in an atmosphere of dignity and respect—a true home for each resident veteran.

The Homes range in size from 60 residents on a 20 acre site to over 1,000 residents on 500 acres. When all eight Homes are complete, they will house and care for approximately 3,000 veterans.

Veterans who are age 55 and above and discharged from active military service under honorable conditions, are eligible to apply for admission. The age requirement is waived for disabled or homeless veterans needing long-term care.

College Tuition Fee Waivers for Veterans' Dependents

Waiver of mandatory system-wide tuition and fees at any State of California Community College, California State University or University of California campus. There are 4 different classes of eligibility:

Plan A

- A child between the age 14 - 27 of a veteran who is totally service-connected disabled, or whose death was officially rated as service-connected is eligible. If the child is a veteran, the age limit is extended to age 30;

- The spouse, Registered Domestic Partner (RDP), or unmarried surviving spouse or RDP of a wartime totally service-connected disabled veteran
- Any dependent of any veteran who has been declared missing in action, captured in the line of duty by hostile forces, or forcibly detained or interned in the line of duty by a foreign government or power

The veteran must have served at least one day of active duty during a period of war as declared by the U.S. Congress, or during any time in which the veteran was awarded a campaign or expeditionary medal. Concurrent receipt of benefits under Plan A and VA Chapter 35 benefits is prohibited. To receive benefits under Plan A, a dependent must sign an "election" statement acknowledging this fact. There are no income restrictions under this plan. To be eligible, the event which caused basic entitlement to benefits (i.e., the date the veteran died of service-connected causes or the date the VA rated the veteran as totally disabled as a result of service-connected disabilities) must have occurred prior to the child's 21st birthday.

Plan B

The child of a veteran who has a service-connected disability, or had a service-connected disability at the time of death, or died of service-related causes is eligible. The child's annual income, which includes the child's adjusted gross income, plus the value of support provided by a parent, may not exceed the annual income limit. The current academic year entitlement is based upon the previous calendar year's annual income. Under Plan B, wartime service is not required and there are no specific age requirements. Children are the only dependents eligible under this plan. There is no prohibition against receiving concurrent VA Chapter 35 benefits.

Plan C

Any dependent of any member of the California National Guard, who in the line of duty while on active service to the state, was killed, died of a disability resulting from an event that occurred while in active service to the state, or is permanently disabled as a result of an event that occurred while in the service to the state is eligible. Surviving spouses or RDPs who have not remarried are also eligible. "Active service to the state," for the purpose of this benefit, means a member of the California National Guard activated pursuant to Section 146 of the Military and Veterans Code. A copy of those orders pursuant to Section 146, not Section 143, must be furnished to establish eligibility.

Plan D

Medal of Honor recipients and children of Medal of Honor recipients under the age of 27 may qualify. Benefits under Plan D are limited to undergraduate studies only, and applicants are subject to both income and age restrictions. State of California Veterans Cemetery

Complete, professional burial services at no cost to veterans (\$500 fee for spouses or dependents). Veterans, dependents and survivors who meet VA eligibility requirements for burial in a national cemetery may be eligible. There are 3 state veterans' cemeteries within California:

- **Northern California Veterans Cemetery.** The Northern California Veterans Cemetery (NCVC) is the first California Veterans Cemetery constructed with the cooperation of the US Department of Veterans Affairs, and is operated by the state. State Veterans Cemeteries are intended to serve areas that are not adequately served by a National Cemetery. NCVC, located near Redding, California, primarily serves the veteran population in the eighteen Northern-most California counties. The currently developed area of the cemetery provides sufficient burial space for more than thirty years. Beyond that, the cemetery has the capacity for expansion of space for well beyond 100 years. Any eligible veteran, along with their spouse and eligible dependents, may be interred at the cemetery.
- **Yountville Veterans Cemetery.** The Yountville Veterans Cemetery is located on 11 acres of oak-covered hills in the northwest corner of the Yountville Veterans Home; this historic cemetery marks the resting place of over 5,700 veterans and dependents. The cemetery currently accepts only the interment of the Veteran Home's residents and their eligible dependents. Eligibility for interment is equivalent to the requirements for burial in a National Cemetery.
- **California Central Coast Veterans Cemetery.** The California Central Coast Veterans Cemetery (CCCVC) will be the second California Veterans Cemetery developed and constructed in cooperation with the US Department of Veterans Affairs, Veterans Cemetery Grants Service. The facility will be located in Monterey County in the City of Seaside. CCCVC is currently in the design phase with the construction phase estimated to begin in November 2014. Construction is scheduled for completion in January 2016. The first phase of the cemetery will accommodate cremated remains only. Casketed burials will be included in the second phase of development. While there is currently no scheduled opening date for phase I, the California Department of Veterans Affairs is committed to widely publishing the dedication and opening. The application requirements and scheduling process will be shared as the opening draws near.

The VA has adopted regulations that establish the eligibility requirements for interment in a state veterans' cemetery. The regulations make the state eligibility requirements equivalent to the requirements for burial in a National Cemetery and provide for CalVet collection of information needed to determine eligibility. For eligibility requirements, go to <http://www.cem.va.gov>. The Eligibility Determination/Pre-need Form is designed to assist in determining eligibility for burial in the NCVC on a pre-need basis. Pre-need determination allows a veteran to establish in advance, his/her eligibility for interment at the NCVC. There is no cost for pre-need determination, and it does not obligate the veteran to be interred at the cemetery. Pre-need determination is intended to simplify and assist the veteran's next-of-kin at the time of

death. There will be a \$500 interment fee for eligible spouses and dependent children at the time of need. Associated funeral expenses are incurred by the veteran and/or family. The Eligibility Determination Form can be downloaded or is available from the local County Veterans Service Office <http://www.cacvso.org>.

National Veterans Cemetery VA Burial Benefits

The VA's National Cemetery Administration maintains 131 national cemeteries in 39 states (and Puerto Rico) as well as 33 Soldier's lots and monument sites. There are nine national cemeteries in California, of which five (Riverside National Cemetery, Sacramento Valley VA National Cemetery, San Joaquin Valley National Cemetery, Miramar National Cemetery and Bakersfield National Cemetery) are presently accepting new interments. The other national cemeteries in California are only accepting burials of family members of persons already interred, although Fort Rosecrans National Cemetery (near San Diego) still offers burial of cremated remains.

Persons eligible for burial in a national cemetery include:

- Veterans;
- Service members who die on active duty;
- Certain Reservists and National Guard members;
- World War II Merchant Mariners;
- U.S. citizens who served honorably in the Armed Forces of an Allied government during a war
- Such other persons or classes of persons as may be designated by either the Secretary of Veterans Affairs or the Secretary of the Air Force.
- Additionally, the spouse and the children (as defined) of eligible persons are also eligible for burial in a national cemetery. In some cases, parents of active duty military killed in action may also be eligible.

Burial benefits may include the following: gravesites for casket or cremation remains, headstones or markers, opening and closing of the graves, and continued perpetual care. Burial of eligible veterans and dependents is at no cost when interred at a national cemetery.

Associated funeral expenses are the responsibility of the veteran and/or family. For assistance in completing applications for cemetery and burial benefits, please contact the local County Veterans Service Office.

Burial and Plot-Interment Allowances

VA burial allowances are partial reimbursements of an eligible veteran's burial and funeral costs. When the cause of death is non-service related, the reimbursements are generally described as two payments: (1) a burial and funeral expense allowance, and (2) a plot or interment allowance.

A veteran may be eligible for a VA burial allowance if:

- the veteran paid for a veteran's burial or funeral; and
- the veteran has not been reimbursed by another government agency or some other source, such as the deceased veteran's employer; and
- the veteran was discharged under conditions other than dishonorable.

In addition, at least one of the following conditions must be met:

- the veteran died because of a service-related disability; or
- the veteran was receiving VA pension or compensation at the time of death; or
- the veteran was entitled to receive VA pension or compensation, but decided not to reduce his/her military retirement or disability pay; or

- the veteran died while hospitalized by VA, or while receiving care under VA contract at a non-VA facility; or
- the veteran died while traveling under proper authorization and at VA expense to or from a specified place for the purpose of examination, treatment, or care; or
- the veteran had an original or reopened claim pending at the time of death and has been found entitled to compensation or pension from a date prior to the date of death; or
- the veteran died on or after October 9, 1996, while a patient at a VA-approved state nursing home.

How Much Does the VA Pay?

- **Service-Related Death:** The VA will pay up to \$2,000 toward burial expenses for deaths on or after September 11, 2001. If the veteran is buried in a VA national cemetery, some or all of the cost of transporting the deceased maybe reimbursed.
- **Non-Service-Related Death:** The VA will pay up to \$300 toward burial and funeral expenses and a \$300 plot-interment allowance for deaths on or after December 1, 2001. As of October 2011, the burial and funeral expenses and the plot allowance increase to \$722. If the death happened while the veteran was in a VA hospital or under VA contracted nursing home care, some or all of the costs for transporting the veteran's remains may be reimbursed. No plot allowance is paid to the family when the burial occurs in a national or state veteran's cemetery.
- To obtain information regarding associated funeral expenses are incurred by the veteran and/or family, contact the local County Veterans Service Office.

To apply for burial benefits, complete VA Form 21-530, Application for Burial Benefits. Attach a copy of the veteran's military discharge document (DD Form 214 or equivalent), death certificate, and funeral and burial bills. The bills should indicate they have paid them in full. Please download the form or one can be obtained from the local County Veterans Service Office.
